

LaRhea COOL

coffee is not enough
you need a cool balance

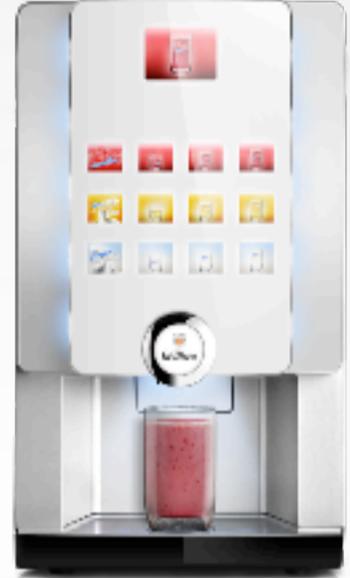

Coffee is the world's first and favorite energy drink.

But the body needs other important sources of energy like vitamins, minerals and natural sugars in order to maintain a proper metabolic balance.

The new Cool series, compatible with all LaRhea coffee machines, makes this possible in a healthy and enjoyable way, offering a range of refreshing enhanced water drinks to complement coffee consumption and keep you feeling your best. Because life is all about balance.
